Dr. King's Announcement: I am not an old-time doctor claiming to have been a specialist for a quarter or half a century, and hence with methods necessarily antiquated, obsolete and out of date, but, on the other hand, my methods and practices are decidedly those of the present day-adding the benefits and experiences of the past to the superior knowledge and perfected methods of the present. They are the latest discovered, whose efficiency has been proven, and my experience in this class of diseases—those peculiar to men—for the past fifteen years, with my financial standing, the permanency of my location and the indorsement of the thousands whom I have cured and brought back to health and happiness, make me the only specialist to-day with sufficient confidence and faith in his treatment to offer to the afflicted a

Much interest is being manifested in the Belleville chorus, and the local authorities would not be surprised if the Belleville division came to St. Louis with 600 trained voices. The committees for these two dis-tricts are: Liederkranz, Ferd. J. Schrader.

tricts are: Liederkranz, Ferd. J. Schrader. Ernst L. Reinhardt and Philip Knapp; Kronthal Liedertafel, Adam Bhret, George A. Bieser and F. J. Winkler.

Final arrangements regarding the platform on which chorus and orchestra are to be seated have been made. These plans have been adjusted to general satisfaction and the committee are arranging for the publication of a detailed drawing, which will show the location of each of the 4.00 seats needed to accommodate the active portion of the festival participants. The platform is an immense structure, 200 by 101 feet, and for the extra musicians needed and for the conductor's stand a further arrangement will be built, all of this in such detail as will conform to impressiveness of display and completeness of musical presentation.

SEATS FOR SIXTY THOUSAND.

At the World's Fair dedication exercises 60,000 chairs are to be placed in the Liberal Arts building. This widerness of seats will be allowed to remain, and is to be rearranged for Saengerfest purposes. Considerable work remains to be done in this matter, and the Music Committee is preparing a diagram for the reseating of the hall after the exercises mentioned.

The question involved here and in the general scheme of hall decoration is the delicate one of acoustics. There cannot be a surfeit of draperies, nor an overloading of the hall, for all of these tend to deaden the sound.

The Board of Education at its recent meeting resolved that 2,500 children in the lower and middle grades shall be permitted to participate in the choruses of the coming saengerfest.

All other preparations for the saengerfest are well under way, not the least of which is the entertainment of the thousands of singers who are coming from a distance. The entire administration organization is working to make the thirty-first National Saengerfest the most notable in the history of these festivals in the United States. SEATS FOR SIXTY THOUSAND.

account of her age her friends fear that the shock may be productive of more serious results.

Mr. and Mrs. George Reiss, parents of Mrs. Kraus, were present. They are Latherans, and wanted their daughter buried in a Latheran cemetery, but Kraus, because of his suicide, could not be buried there on account of religious restrictions.

The Reverend Henry Voss, pastor of Manchester Evangelical Church, conducted the religious services at the house.

The Kraus tragedy recalls to the minds of many persons in St. Louis County a murder which occurred at Fox Creek, about ten miles west of Beliefontaine, eighteen years ago, when Mrs. Mina Krueger, in an insane moment, took her twin children into an outhouse to butcher them.

Mrs. Krueger succeeded in killing only one of her children, Ida, a girl 3 years old. The whole community was startled by the atrociousness of the deed, Mrs. Krueger was adjudged insane and sent to an asylum. After remaining there a few years she was discharged and sent back to her husband. Later her mind again became weakened. Six months later she committed suicide by swallowing a draught of Paris green.

Gas and Electricity, appointed Cary T. Hutchinson, an electrical engineer, to draw plans and give estimates for the cost of a municipal lighting plant.

This is the first real move in the fight against the extortion and arrogant tyranny of the lighting combination, and the whole power of the city is committed to it. The plant once established, there is hope that private consumers may be freed from the grip that makes them bow to the demands of the trust or sit in darkness.

Mr. Menroe, in a report to the Mayor yesterday, suggested that the city establish a plant of its own to free it from the grap of the monopoly. The city, he showed, is compelled to pay \$146 annually for each lamp, whereas Chicago pays only \$3.51 per year, and the average paid by cities of the first and second class is only \$85.60 a year.
